Welcome to Efficiency United's Commercial and Industrial Program

Please follow the four-step process to apply for and obtain incentives for your energy efficiency projects.

Your business must be a current electric commercial or industrial customer of a participating Efficiency United utility to use this program.

Incomplete applications cannot be processed for payment.

Notification of incomplete applications will be sent via email. Applicants will be given 15 business days to respond before the application is deemed ineligible. Applications must be received within 60 days of purchase and/or installation of measures.

Project process:

1. Complete and submit the application.

Submit an application and all required documentation before making any purchases or starting any work on the project. Projects that begin or complete without approval risk having their application denied.

- General information (page 4) and appropriate pages for your project.
 - Prescriptive (pages 6–23)
 - Custom (page 24)
- An itemized quote from selected vendor that includes the quantity, size, type, make and model of proposed items and labor costs, if applicable. Internal labor cannot be included in project cost.
- The manufacturer (OEM) specification sheets for all eligible measures per program guidelines.
- A copy of one month's utility bill for prescriptive projects or 12 consecutive months of utility bills for custom projects. The first two pages are sufficient if they include a summary of energy use and charges.

2. Obtain approval notice.

Upon verifying that the project meets the program requirements, the customer listed on this application will receive a letter via email (or standard mail if email is unavailable) indicating the funds have been reserved for this project.

- Incomplete applications will result in delays.
- This letter must be signed and returned within 10 days.
- From the date of issuance of this letter, you will have 90 days or until Nov. 30, 2026, to complete the project and submit all final documentation. Applicant may submit a written request for one 30-day project completion extension.
- After 90 days or Nov. 30, 2026, this application will expire and the reserved funds will be forfeited.

3. Install your project.

After signing and returning pre-approval notification, install the new equipment and remove the old equipment. Incomplete applications will result in delays.

- Only new products, which are exact product types listed in this application, are eligible for Prescriptive incentives.

4. Complete and submit the final application.

- Submit the final application (page 25), including all project invoices, after the project is completed.

Terms and Conditions

ELIGIBILITY: Efficiency United energy efficiency incentives are offered to qualifying electric customers only while funding is available.

Projects must be implemented (completed) by Nov. 30, 2026. All application documentation must be submitted within 60 days of project completion or Nov. 30, 2026. Projects must seek to reduce electric usage through energy efficiency system improvements. The following measures will not qualify: peak shaving, demand reductions, fuel switching, power generation, renewable energy, or operating schedule changes. Equipment must meet the minimum number of annual operating hours.

COMPLIANCE: All projects must comply with applicable federal, state, and local laws and building codes. All equipment must be new or retrofitted with new components per program specification. Used or rebuilt equipment is not eligible for incentives. Existing equipment must be removed or permanently disconnected. New equipment must meet specification requirements and existing equipment must be operational when the application is submitted. Only one incentive will be granted for each project. Customers can submit multiple projects in a calendar year; however, the incentive totals cannot exceed the incentive limit cap per year. If the project is in a leased building, the lease term must be at least three (3) years and a copy of the lease may be requested. Up to 24 months of utility usage information may be requested.

INCENTIVE CAPS: Incentives awarded may not exceed 75% of the total project cost, including materials, external labor, permits, equipment rental or disposal. Each utility participating in Efficiency UNITED has a unique budget. All incentives awarded must remain within utility program funding.

INSPECTION: Program staff reserves the right to conduct pre-inspections and post inspections of proposed and installed projects.

PUBLICITY: Efficiency United reserves the right to publicize your participation in this program, unless you specifically request otherwise.

LOGO USE: Customers or allies may not use the Efficiency United name or logo nor that of any participating utilities in any marketing, advertising, or promotional material without written permission.

PROGRAM DISCRETION: Incentives are available on a first-come, first-served basis. Incentive amounts and offerings are subject to change or termination without notice at the discretion of Efficiency United.

PAYMENT: Once completed paperwork is submitted, incentive payments are usually made within 6 to 8 weeks. Incomplete applications will delay payments or result in denial of application approval. Efficiency United

reserves the right to refuse payment and participation if the customer or contractor violates program terms and conditions. Efficiency United must receive 100% of the energy savings for the rated life of the product(s) or for a period of three (3) years from the receipt of incentive, whichever is less. If you do not provide the energy savings, the facility in which the installed projects are located closes or ceases operation within three (3) years from receipt of incentive, or you cease to be a customer of a participating Efficiency United utility during the three (3) years, you shall refund a prorated amount of the incentive.

RELEASE/INDEMNIFICATION: Payment of incentives under the Program and/or evaluation of applications for incentives shall not deem Efficiency United or any of its affiliates, employees, contractors or agents ("Efficiency United Parties") to be responsible for any work completed in connection herewith. Applicant fully releases Efficiency United Parties from any and all claims it may have against Efficiency United Parties in connection with this application, the incentives or the work performed in connection with them. In addition, applicant agrees to defend, indemnify and hold Efficiency United Parties harmless from and against any and all claims, losses, demands or lawsuits by any third parties arising in connection with this application, the payment or non-payment of incentives, or any work performed in connection with them. The customer hereby releases Efficiency United and participating utilities from any and all liability arising from or connected with releasing the information to Efficiency United set forth herein.

Efficiency United is a program administered and implemented by CLEAResult and the Michigan Community Action Agency Association pursuant to a contract with the State of Michigan, Department of Energy, Labor & Economic Growth, and in compliance with PA 342 of 2016.

VSD or Servo Hydraulic Plastic Injection Molder Machines ≥400 to <600 lb/yr/ton	\$2.99	per ton		
Engine Block Heater Controls	\$40.00	per heater		

PC Network Energy Management Controls

Measure	Incentive	Unit	# of Units	Total Incentive
PC Network Energy Management Controls Replacing No Central Controls	\$9.00	per PC		

Part 13 Total Incentive

Part 14: Agriculture

VSDs on Irrigation and Milk Pumps

Measure	Incentive	Unit	# of Units	Total Incentive
On Agricultural Irrigation Systems	\$15.00	per HP		
On Milk Pump with Existing Heat Exchanger	\$0.04	per lb. milk/day		
On Milk Pump with New Heat Exchanger	\$0.07	per lb. milk/day		

Scroll Compressors

Measure	Incentive	Unit	Total Lbs Milk/Day	Total Incentive
For Dairy Refrigeration with Heat Exchanger	\$0.04	per 1,000 lbs milk/day		
For Dairy Refrigeration without Heat Exchanger	\$0.02	per 1,000 lbs milk/day		

VSD on Agriculture Fans & Pumps

Measure	Incentive	Unit	# of Units	Total Incentive
Fans				
Operating 750–2,000 hrs/yr	\$15.00	per fan		
Operating >2,000 hrs/yr	\$60.00	per fan		
Pumps				
Operating 750–2,000 hrs/yr	\$10.00	per HP		
Operating >2,000 hrs/yr	\$25.00	per HP		

Cold Storage Evaporator

Measure	Incentive	Unit	Total Lbs Milk/Day	Total Incentive
Cold Storage Evaporator ECM Fan Motor	\$45.00	per HP		

Horticulture

Measure	Incentive	Unit	# of Units	Total Incentive
ENERGY STAR Dehumidification for Indoor Horticultural Facilities ≤25 Pint/Day Capacity	\$1.27	unit		
ENERGY STAR Dehumidification for Indoor Horticultural Facilities >25 to ≤50 Pint/Day Capacity	\$3.74	unit		
ENERGY STAR Dehumidification for Indoor Horticultural Facilities >50 to 155 Pint/Day Capacity	\$3.21	unit		
Dehumidification for Indoor Horticultural Facilities >155 Pint/Day Capacity	\$1.20	capacity pints/day		

Part 14: Agriculture *(Continued)*

Waterer and Controls

Measure	Incentive	Unit	# of Units	Total Incentive
Low Energy Livestock Waterer	\$125.00	per waterer		
Grain Storage Temperature and Moisture Management Controller	\$25.00	per fan-HP		
Fan Thermostat Controller	\$150.00	per fan		

Part 14 Total Incentive

Note: Pre-Approval Applications must be submitted for **all** Custom projects

Part 1: Project Summary

PROJECT DESCRIPTION	
Before Retrofit (<i>Baseline</i>)	Post Retrofit (<i>Proposed System</i>)

Part 2: Energy Savings Summary Table

Project Type	Measure Life	Current Energy Rate (\$/kWh)	Annual Savings (kWh/Yr)(A)	Incentive Rate (\$ per kWh)(B)	Project Cost	Simple Payback Period*	Calculated Incentive (AxB)

*Project payback period must be greater than one year and may not exceed eight years to qualify for an incentive.

Measure	Incentive
Non-Lighting	\$0.08
LED Lighting	\$0.08

Part 3: Executive Summary (Detailed description of the project and calculations)

Note: Complete and submit this Final Application within 60 days of equipment installation.
